Variations and Deviations

Many ingredients used in our formulations are considered being from a natural source. Their exact composition may vary from batch to batch, potentially resulting in alterations in the properties of the final phospholipid formulation. Consequently, variations in color, pH, viscosity, as well as the possibility of sedimentation are to be anticipated between batches, due to natural variations of the ingredients. Please note that we cannot be held liable for such variations. pH adjusting ingredients may be used in different quantities than stated in documents. As a results of our technological advancement, the phospholipid content for relevant formulas can be optimised in the range of 8-13%. Our primary objective is to maintain product quality and liposomal stability.

Electromagnetic Wave Exposure Declaration

According to the information of our suppliers no ingredient was exposed to high energy electromagnetic radiation or ionization. The final product likewise was not exposed to such radiation.

Storage & Handling Instructions
